

## Model: Zorpro 6T

The Zorpro 6T is the perfect walk through metal detector if you need to also scan the body temperature as people walk through. Great for helping detect people that are sick and running fevers.

Each person easily stops and scans temperature before walking through the metal detector. You can also remove the

### Features and Specs:

- Temperature scanner accuracy within 0.5F+-
- Temperature scan time = 1 second
- Metal detector scans for guns, knives, & more
- 18 detection zones
- Each metal detector zone can be adjusted to different sensitivity
- Power consumption: 30 W
- Working frequency :1~12 bands
- Highest standard: Metal size  $\geq 6$  g
- Outside dimension: 86.6in x 33.8in x 17.3in
- Vertical channel size: 78.7in x 27.5in
- Working voltage: AC 120v – 220V 50/60Hz
- Working environment temperature:  $-20^{\circ}\text{C}\sim+45^{\circ}\text{C}$
- Easy to setup and self install in less than 30 minutes.
