

Zorpro 6T

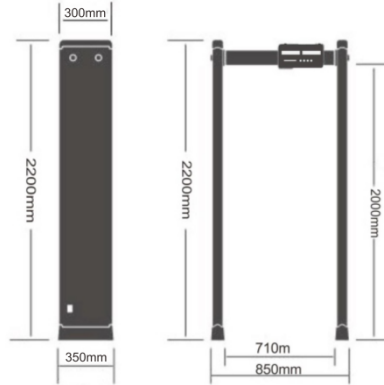

The Zorpro 6T is already used in many applications such as courthouses, schools, event centers and more. The 6T is best used by having the individual scan their forehead (or wrist) within 2in from the temperature device and then having them walk through the metal detector.

Features:

- 18 Detection zones for metal detector with LED indicators on each panel.
- Entry/Exits tracker
- Security Password required to change settings
- Temperature Accuracy: $\pm 0.5^{\circ}\text{F}$
- Adjustable Temperature Threshold for fine tuning
- Displays Walkthrough Count, High temperature readings, Alarm Times, and Real Time Temperature.
- Auto Calibration for Metal Detector and Temperature Scanner
- Audible Alarm On or Off
- 200 Sensitivity levels for metal detector
- Ability to adjust each metal detector zone sensitivity separately
- Relay switch output for pass/fail readings. Allowing for remote doors and accessories if needs be.
- Forehead or wrist scanner
- Metal Detectable can detect 25 mm in Middle Section and even closer on the sides of metal detector. Belt Buckles etc. Can Be Excluded. Detects Copper, Aluminum, Zinc (over 150 g), Knives, Guns and more.
- Filters built in to help block out external noise and false readings.

N.W/G.W: 30G/35KG
 Carton Box Dimension Size:
 2310*340*480mm

No	Standard for Metal Detection	Technical Parameters
1	Display	4 digitals LED Digital Display
2	Sensitivity Level	200 grades(can be adjusted from 0 to 200)
3	Metal Detection Zone	1 Zone(standard), without LED light indicator at both panel sides
4	Channel Size/Vertical Dimension	2000 x 710 mm/2200(H) x 850(W) x 350(D)mm
5	Working Frequency Range	1~50 bands
6	Working Voltage	AV110~220V, <20 W
8	Panel Material	Fireproofing PVC, First-class Aluminium Frame
9	Certificate	CE, FCC, RoHS, ISO14001 · ISO9001 · OHSAS18001
10	Sensitivity Level:	500 grades(adjustable)
